Alex Example

Software engineering undergraduate. alex.example@example.com

Technical Skills

Python, JavaScript, React, SQL, Git, HTML, CSS

Projects

Student Portal: built a web application with React and JavaScript on the frontend and a Python REST API backend storing data in SQL.

Data Dashboard: wrote Python scripts to clean data and SQL queries to report results, versioned with Git.

Experience

Intern Developer (6 months): developed HTML and CSS pages and fixed JavaScript bugs.

Education

BSc (Hons) in Information Technology, Example University
